MANAGEMENT DISCUSSION AND ANALYSIS

The Group is a Hong Kong-based restaurant operation and management group that offers a variety of specialty cuisines in restaurants designed by award-winning interior and lighting designers.

During the nine months ended 30 September 2022 (the “**Review Period**”), the Group had been principally engaged in operating full services restaurants under various brands and was dedicated to serving quality Japanese, Thai, Vietnamese, Shanghaiese and Italian cuisines to different customers. In addition to the restaurant operation business, the Group also provides restaurant management and consultancy services in Hong Kong and the People’s Republic of China (the “**PRC**”).

INDUSTRY OVERVIEW

Since entering 2022, business of restaurants has been under renewed pressure due to the fifth wave of the Coronavirus Disease 2019 (the “**COVID-19**”) pandemic and the tightened social distancing measures in response. Certain measures had significant adverse impact on the operation of the restaurants and the business, especially the implementation of dine-in services ban from 6 p.m. to 4:59 a.m. of the next day and number of diners per table was capped at two, four and six in Types B, C and D mode of operation respectively during the period from 7 January 2022 to 23 February 2022 and further reduced the maximum number of diners per table to two regardless of the mode of operation until 20 April 2022. From 21 April 2022 onwards, the above-mentioned social distancing measures were adjusted to allow for gradual and orderly resumption including the extension of dine-in services for the dinner session to 0:00 a.m. and the maximum number of diners per table up to eight until the end of the Review Period. Certain of these measures were further relaxed subsequent to the Review Period in October 2022.

The outlook down the road depends critically on the developments of the local epidemic situation, the government policies implemented in relation to the social distancing measures and other related controls of social and economic activities. The Group will continue to monitor the developments closely and will be cautious in running our business.

BUSINESS REVIEW

Hong Kong

During the Review Period, the Group opened a new Shanghainese restaurant under the trade name of “Modern Shanghai” in East Point City.

During the period from 7 January 2022 to 20 April 2022, the operations of the restaurants were greatly impacted as the dine-in services ban from 6 p.m. to 4:59 a.m. of the next day and the number of diners per table was capped according to the tightened social distancing measures in force. From 21 April 2022 onwards, the above-mentioned social distancing measures were adjusted to allow for gradual and orderly resumption including the extension of dine-in services for the dinner session to 0:00 a.m. and the maximum number of diners per table up to eight until the end of the Review Period.

As at 30 September 2022, the Group had a total of thirteen restaurants under five self-owned brands in Hong Kong, namely, Ta-ke, An Nam, Modern Shanghai, 10 Shanghai and Hokkaido and three franchised or sub-licensed brands, namely, Mango Tree, Gonpachi and Paper Moon.

During the Review Period, two tenancy agreements have been signed by us for the renewal of:

- (a) an existing Thai cuisine restaurant (where our Mango Tree Restaurant is located in) in Elements, the expiry of lease had been extended from 1 September 2022 to 31 August 2024; and
- (b) an existing Shanghainese cuisine restaurant (where our 10 Shanghai Restaurant is located in) in Lee Garden Two, the lease had been extended from 1 October 2022 to 30 September 2024.

The Company also entered into certain new tenancies during the Review Period to open new restaurants and to relocate certain of our existing restaurants for the expansion and upgrading purpose as detailed in the “Prospect” section below.

The PRC

As at 30 September 2022, the Group has a total of three invested restaurants in the PRC with minority stake investment in each of their respective operating company, including 24.9% equity interests in each of the respective operating company of the two invested restaurants, namely Guangzhou Mango Tree Food & Beverage Co. Ltd (廣州芒果樹餐飲有限公司) and Guangzhou Ten Shanghai Food & Beverage Co. Ltd (廣州十里弄餐飲有限公司), and 15.0% equity interests in the operating company of one invested restaurant, namely Guangzhou Mango Tree (La Perle) Food & Beverage Co. Ltd. (廣州芒果樹麗柏餐飲有限公司). We also provided one-off pre-opening consultancy services and restaurant management services to these restaurants.

As the outbreak of the COVID-19 was less serious in certain provinces in the PRC, the revenue of these restaurants was improved. However, the outlook down the road depends critically on the developments of the local epidemic situation and the government policies implemented with respect to different locations. The Group will continue to monitor the developments closely and will be cautious in running and expanding our PRC related business.

FINANCIAL REVIEW

Revenue

During the Review Period, approximately 99.4% of the Group's revenue was generated from the operation of restaurants in Hong Kong and approximately 0.6% of the Group's revenue was generated from the pre-opening consultancy and restaurant management services. As at 30 September 2022, the Group was operating thirteen (2021: twelve) restaurants, of which one (2021: nil) restaurant was newly opened and no (2021: nil) restaurant was closed down for the Review Period in Hong Kong.

The revenue decreased by approximately 15.5% from approximately HK\$288.2 million for the nine months ended 30 September 2021 to approximately HK\$243.6 million for the nine months ended 30 September 2022. The decrease in revenue during the Review Period was mainly attributable to the fifth wave of COVID-19 outbreak and the implemented anti-epidemic measures; and among which, the dine-in services ban from 6 p.m. to 4:59 a.m. of the next day from 7 January 2022 to 20 April 2022 and the cap of two diners per table according to the tightened social distancing measures imposed by the Hong Kong government had a significant adverse impact on the financial performance. Such decrease has gradually slowed down since 21 April 2022 when the dine-in service for the dinner session was partially resumed and further relaxed by stages, coupled with the effect of the government's consumption voucher scheme, which led to strong stimulating effect on spending and enhanced the Group's revenue.

The Group served mainly five different cuisines during the Review Period. The table below sets forth a breakdown of the Group's revenue generated by operation of restaurants by type of cuisine and as a percentage of total revenue generated by operation of restaurants for the periods indicated:

	For the nine months ended 30 September			
	2022		2021	
	Revenue	% of total	Revenue	% of total
	HK\$'000	(%)	HK\$'000	(%)
Shanghainese	77,218	31.9	78,585	27.5
Japanese	56,438	23.3	75,494	26.5
Thai	49,148	20.3	58,274	20.4
Vietnamese	30,546	12.6	39,482	13.8
Italian	28,802	11.9	33,527	11.8
Total	242,152	100.0	285,362	100.0

Shanghainese-style restaurants

The revenue generated from operation of Shanghainese-style restaurants slightly decreased by approximately HK\$1.4 million, or approximately 1.8%, from approximately HK\$78.6 million for the nine months ended 30 September 2021 to approximately HK\$77.2 million for the nine months ended 30 September 2022. The decrease in revenue was mainly due to the impact from dine-in services ban and the cap of two diners per table imposed to the catering business from 7 January 2022 to 20 April 2022 and netted off by the sales contribution from the newly opened restaurant at East Point City in late July 2022.

Japanese-style restaurants

The revenue generated from operation of Japanese-style restaurants decreased by approximately HK\$19.1 million, or approximately 25.3%, from approximately HK\$75.5 million for the nine months ended 30 September 2021 to approximately HK\$56.4 million for the nine months ended 30 September 2022. The substantial decrease was mainly attributable to the tightened social distancing measures mentioned above and followed by the partial relaxation in anti-epidemic measures in late April 2022, the plummeted sales revenue has been slowed down.

Thai-style restaurants

The revenue generated from operation of Thai-style restaurants decreased by approximately HK\$9.2 million, or approximately 15.8%, from approximately HK\$58.3 million for the nine months ended 30 September 2021 to approximately HK\$49.1 million for the nine months ended 30 September 2022. The substantial decrease was mainly attributable to the tightened social distancing measures mentioned above and followed by the partial relaxation in anti-epidemic measures in late April 2022, the plummeted sales revenue has been slowed down.

Vietnamese-style restaurants

The revenue generated from operation of Vietnamese-style restaurants decreased by approximately HK\$9.0 million, or approximately 22.8%, from approximately HK\$39.5 million for the nine months ended 30 September 2021 to approximately HK\$30.5 million for the nine months ended 30 September 2022. The substantial decrease was mainly attributable to the tightened social distancing measures mentioned above and followed by the partial relaxation in anti-epidemic measures in late April 2022, the plummeted sales revenue has been slowed down.

Italian-style restaurant

The revenue generated from operation of Italian-style restaurant decreased by approximately HK\$4.7 million, or approximately 14.0%, from approximately HK\$33.5 million for the nine months ended 30 September 2021 to approximately HK\$28.8 million for the nine months ended 30 September 2022. The substantial decrease was mainly attributable to the tightened social distancing measures mentioned above and followed by the partial relaxation in anti-epidemic measures in late April 2022, the plummeted sales revenue has been slowed down.

Cost of inventories sold

The cost of inventories consumed mainly represents the costs of food ingredients and beverages for the operation of the Group's restaurants. The major food ingredients purchased by the Group include, but not limited to, meat, seafood, frozen food, vegetables and beverages. Cost of inventories consumed is one of the major components of the Group's operating expenses which amounted to approximately HK\$70.7 million and HK\$84.6 million for each of the nine months ended 30 September 2022 and 2021, respectively, representing approximately 29.2% and 29.6% respectively of the Group's total revenue generated from operation of restaurants for the corresponding period. The cost of inventories sold as a percentage of revenue decreased, mainly contributed by cost reduction measures followed by the drop in sales revenue.

Staff costs

Staff costs primarily consist of salaries, wages and allowances, pension costs and other employee benefits, and were one of the largest components of the operating expenses of the Group. The staff costs increased from approximately HK\$90.5 million for the nine months ended 30 September 2021 to approximately HK\$96.8 million for the nine months ended 30 September 2022, representing an increase of approximately 7.0% in comparison. Such increase was mainly due to the additional labour forces for the new Modern Shanghai restaurant in East Point City, netted off by the cost reduction measures coped with the tightened social distancing measures implemented.

The Directors expect the costs will slightly increase if the economy of Hong Kong is showing steady improvement as COVID-19 outbreak is gradually put under control.

The Directors recognise the importance of retaining quality staff while believe that the resulting upward pressure on the total staff costs as a percentage of total revenue could be mitigated by (i) prioritising internal transfers and re-allocations of employees from existing restaurants; (ii) increasing productivity of the staff by providing training; and (iii) minimising attrition levels by continuing to implement various employee retention initiatives to promote employee loyalty and motivate the employees.

Depreciation and amortisation

Depreciation and amortisation of approximately HK\$43.2 million and HK\$56.6 million for the nine months ended 30 September 2022 and 2021, respectively for its right-of-use assets, leasehold improvements, furniture and fixtures, catering and other equipment and motor vehicle. The decrease of depreciation was contributed by impairment loss recognised in previous years and certain fully depreciated assets at our remaining restaurants compared to the corresponding period in 2021.

Rental expenses

The rental expenses for the nine months ended 30 September 2022 amounted to approximately HK\$4.9 million, representing a decrease of approximately 15.5% as compared with that of the nine months ended 30 September 2021 which amounted to approximately HK\$5.8 million. The decrease was due to the drop in revenue of our restaurants which led to a drop in the aggregate turnover rents incurred.

Utility expenses

Utility expenses primarily consist of electricity, gas and water supplies of the Group. For the nine months ended 30 September 2022 and 2021, the total utility expenses amounted to approximately HK\$7.6 million and HK\$7.2 million, respectively.

Other operating expenses

The other operating expenses represent mainly expenses incurred for our operations, including cleaning expenses, consumables stores, transportation and travelling, credit card commission, entertainment, repair and maintenance, insurance, legal and professional fee and marketing and promotion expenses.

The other operating expenses increased from approximately HK\$29.0 million for the nine months ended 30 September 2021 to approximately HK\$31.5 million for the nine months ended 30 September 2022, representing an increase of approximately 8.6%. The increase was mainly attributable to the portion in respect of the share transactions related legal and consultancy services expenses shared, which was netted off by the cost reduction savings resulted from the drop in the revenue.

Income tax expenses

The income tax expenses decreased from approximately HK1.6 million for nine months ended 30 September 2021 to approximately HK\$0.3 million for the nine months ended 30 September 2022.

Finance costs

The Group's finance costs decreased from approximately HK\$2.3 million for the nine months ended 30 September 2021 to approximately HK\$1.5 million for the nine months ended 30 September 2022.

Profit/(loss) for the period

The Group recorded a loss for the period of approximately HK\$1.2 million for the nine months ended 30 September 2022 as compared to a profit of approximately HK\$11.8 million for the corresponding period in 2021. The loss for the period included the government grants in the amount of approximately HK\$11.2 million (2021: HK\$5.1 million) received by the Group during the Review Period.

The loss was mainly attributable to the fifth wave of COVID-19 outbreak and the implemented anti-epidemic measures; and among which, the dine-in services ban from 6 p.m. to 4:59 a.m. of the next day from 7 January 2022 until 20 April 2022 and the cap of two diners per table according to the tightened social distancing measures imposed by the Hong Kong government had a significant adverse impact on the financial performance. Such decrease has gradually slowed down since 21 April 2022 when the dine-in service for the dinner session was partially resumed and further relaxed by stages, which coupled with the effect of the government's consumption voucher scheme, together led to strong stimulating effect on spending and enhanced the Group's revenue.

PROSPECT

Development and expansion of our restaurant network in Hong Kong

Our strategic objective is to continue to develop our brand portfolio and expand our restaurant network by developing restaurants under our own brands and restaurants operating under different franchised or sub-licensed brands.

We will continue to develop our brand portfolio through means such as (i) refining our existing brands, (ii) diversifying our existing brands into junior brands and/or senior brands and (iii) launching new brands.

Reference is made to the Company's announcement dated 7 September 2022, a wholly-owned subsidiary of the Company (as the tenant) entered into the tenancy agreement to rent the premises for a term of four years commencing from 1 December 2022 to 30 November 2026 (with the tenant's option to renew for a further term of two years from 1 December 2026 to 30 November 2028) for the opening of a new restaurant serving Japanese cuisine in HDH Centre in Causeway Bay. The new restaurant is scheduled to open in mid-December 2022.

References are made to the Company's announcement dated 9 September 2022 and the Company's circular dated 29 September 2022, a wholly-owned subsidiary of the Company (as the tenant) entered into the lease and licence agreement to rent the premises in Lee Garden Two for a term of approximately six years and four months from 8 October 2022 to 31 January 2029 for the relocation of our existing An Nam Restaurant and Gonpachi Restaurant in Lee Garden One prior to the early termination of the existing lease in January 2023. The relocation of these two restaurants is expected to be completed in early February 2023.

Reference is made to the Company's announcement dated 11 October 2022, a wholly-owned subsidiary of the Company entered into an offer to lease to rent the premises for a term of four years commencing from 20 January 2023 to 19 January 2027 (with the tenant's option to renew for a further term of two years to 19 January 2029) for the opening of a new restaurant serving Japanese cuisine under the trade name of "Gonpachi" in One Peking in Tsim Sha Tsui. The new restaurant is scheduled to open in mid-January 2023.

While taking into account the latest economic development, change in consumer spending pattern, increase in vacancy rate of shopping centres, latest available resources of the Group and the fact that the Group has been more cautious in evaluating its expansion plans, the Group may consider upgrading our certain restaurants and opening new restaurants with different concepts or concepts with proven track records, lower capital expenditures and/or more favourable rental package. Currently, the Group is in the advanced stage of discussions with a few landlords regarding the leasing of certain units in shopping malls for restaurant operation.

Business outlook for restaurants in the coming months would hinge crucially on the developments of the local epidemic situation, the government policies implemented in relation to the social distancing measures and other related controls of social and economic activities.

Further develop our restaurant pre-opening consultancy and restaurant management services in the PRC

Leveraging on our knowledge and experience in the food and beverage industry, we also provide restaurant pre-opening consultancy and restaurant management services. Our Directors consider that the food and beverage industry in the PRC has significant growth potential. When the impact from COVID-19 is diminished, it is expected that there will be an increasing demand for restaurant consultancy services.

Meanwhile, in view of the above uncertainties, the industry is still facing further challenges while we will continue to review the operation and evaluate the performance of our existing and minority stake invested restaurants, and formulate adequate strategies for each restaurant and our development plan with a more proactive but conservative approach in response to changes in the industry and economic environment with a view to maximising the return to our investors.
